

Group Wrap Up

Review and reflect upon everything you have learned during your Building Bridges experience, and respond to the following...

1. If a colleague were to ask you what you learned as a result of your Building Bridges experience, what would you identify as the top five issues?
2. Who should be responsible for addressing these issues?
3. What strategies are most likely to result in these issues being addressed in your particular school/school system?
4. How might Building Bridges best assist you, your school and/or your school system in fostering these objectives?
